

ProLabs Cabling

Providing high quality copper cabling, fibre cabling and serial cabling into the IT market for over a decade

ProLabs maintains a wide range of supplies, short delivery times and in depth knowledge.

Your physical media may on the face of it be the simplest part of your network but this makes it no less critical. The cable requirements of a project often are the last to be planned and ProLabs large stock holdings and fast turnaround has helped numerous customers meet tight project deadlines. From CAT5E to Infiniband, 850nm fiber to 1550nm fibre, X21 Serial to RJ21 Hydra.

Custom Lengths Available on All Connection Types

ProLabs has a wide range of standard cable lengths available from stock but if you need something a little bit different, our custom service can help. Send us your requirements and we will produce a quality cable to your specification.

Adaptors and Connectors

ProLabs offers a wide range of connectivity components with lifetime warranties to reduce customers supplier base. With a wide range of adaptors, connectors and data points on offer, ProLabs is sure to be able to meet your requirements.
